[1] Special page on the SICHUAN earthquake of May 12, 2008 in China

We present the special page of the SICHUAN earthquake of May 12, 2008 in China, where the following information is available:

- 1) Determination of earthquake magnitudes using duration of high-frequency energy radiation and maximum displacement amplitudes by Dr. Hara
- 2) Aftershock Distribution and the Mainshock Fault Plane by MJHD method by Dr. Hurukawa
- 3) "Earthquake design spectrum in Chinese Design Code" compiled by Dr. Saito
- 4) China-Seismic design code and past seismic damages

Please visit <http://iisee.kenken.go.jp/special/20080512sichuan.htm>

We'd like to ask you, especially Chinese ex-participants, to send us information on this disastrous earthquake to share it.

Nobuo HURUKAWA
Director, IISEE

[2] Published a book "Foundation for Industrial Machines - Handbook for Practicing Engineers" March 2008

The handbook is written primarily for practising engineers as well as for students at Post Graduate level. Handbook shares author's long experience on the subject and focuses on the improvements needed in the design process with the sole objective of making practising engineers physically understand and feel the dynamics of machine foundation system.

Dr. K. G. Bhatia (IISEE Dec 1969 - Jan 1971)

We send this IISEE Newsletter to ex-participants whose e-mail addresses are known. The IISEE send you new information actively and accept your contribution at any time. In order to enlarge our IISEE network, we'd like to ask you to invite your fellow ex-participants whose e-mail addresses are unknown to us to join us. We welcome your comments about the IISEE Newsletter. Please feel free to send us your comments and opinions.
