[1] Special page on the Samoa Islands Region Earthquake of Sep 29, 2009

We present the special page of the Samoa Islands Region Earthquake of September 29, 2009, where the following information is available:

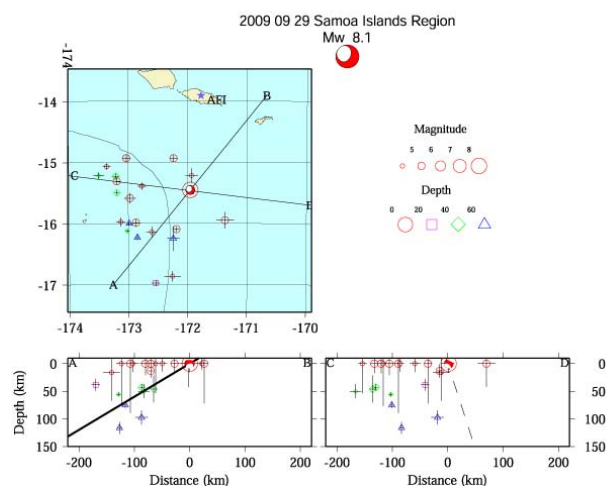

- 1) Tsunami Simulation by Dr. Fujii
- 2) Aftershock Distribution and the Mainshock Fault Plane by MJHD method by Dr. Hurukawa
- 3) Determination of earthquake magnitudes using duration of high-frequency energy radiation and maximum displacement amplitudes by Dr. Hara
- 4) Samoa in IISEE-NET

Please visit <http://iisee.kenken.go.jp/special/20090929samoa.htm>

We'd like to ask you, especially ex-participants in Souther Pacific Region, to send us information on this disastrous earthquake to share it.

[3] The 50th Annual Training Course started

The 50th Annual Training on Seismology, Earthquake Engineering and Tsunami Disaster Mitigation courses started on October 2nd 2009. In this year, we invite 23 participants from 14 countries. As to the Tsunami Disaster Mitigation course, the target region has been expanded and we invite 5

participants not only from Asia but also from Pacific Region and South America this year. These training courses will be carried out until September next year in cooperation with GRIPS and JICA. After getting through the courses with credits required, the master's degree will be awarded to the participants. So, we hope all 2009-10 participants will take the master's degree one year later.
