

Table 1: A list of damaging earthquakes in Turkey (Utsu, 2004. The later updates are added by the International Institute of Seismology and Earthquake Engineering, which is available at http://iisee.kenken.go.jp/utsu/index_eng.html). The search condition is that the death toll is equal to or greater than 100 in the period between 1950 and June, 2009.

Year	Month	Day	Time	Latitude (degree)	Longitude (degree)	Depth (km)	Magnitude	Death toll
1952	1	3	0603U	39.9	41.7	–	6	103
1953	3	18	1906U	40.02	27.53	7	7.4	1103
1957	5	26	0633U	40.6	31.2	–	7.1	500
1966	8	19	1222U	39.15	41.55	14	6.8	2517
1967	7	22	1656U	40.7	30.7	33	6.8	173
1967	7	26	1853U	39.5	40.4	18	6	110
1970	3	28	2102U	39.2	29.5	18	7.1	1086
